ULTRA-PREMIUM BRAKE FLUID

EXTREME LOW TEMPERATURE VISCOSITY

ADVICS ultra-premium brake fluid is tested to perform in the most extreme environments, delivering reliable and consistent brake system operation – even at the coldest temperatures.

INDUSTRY-LEADING WET AND DRY BOILING POINTS FOR BOTH DOT 3 AND DOT 4 LV FORMULATIONS

The competitor's maximum wet boiling point is our normal. ADVICS exceeds industry boiling point benchmarks, which means no spongy pedal feel or air bubbles in brake lines.

MANUFACTURED IN THE USA

Both DOT 3 and DOT 4 LV formulations are manufactured in the United States and conform to the following specifications:

DOT 3

- Federal Motor Vehicle Safety Standard No. 116
- SAE J1703
- ISO 4925 Class 3 Specifications

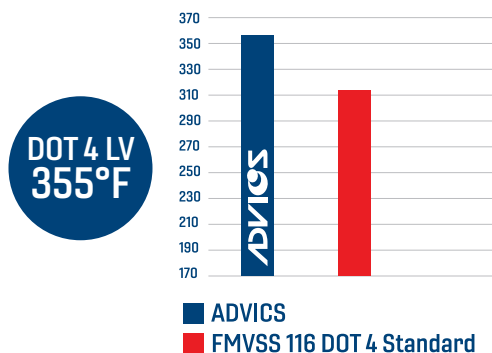

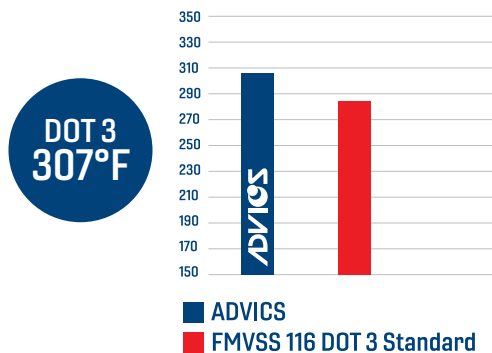

DOT 4 LV

- Federal Motor Vehicle Safety Standard No. 116
- SAE J1704 (LV)
- ISO 4925 Class 6 Specifications

WET AND DRY BOILING POINTS

ADVICS' DOT 3 & DOT 4 LV formulas feature the highest wet and dry boiling points in the industry.
