# INFORMATION ANNOUNCEMENT

## ENGINE WATER PUMPS

Water Pumps listed below do not come with a Gasket in the box. These Water Pump part numbers **REQUIRE** Gasket Sealant (FIPG) for installation. Please read our Water Pump Installation Procedure Bulletin found on our website.

\*Scan QR Code 1 to download the Installation Bulletin.

WPN-089

WPN-700

WPN-800

WPT-801

WPG-020

WPG-027

WPG-028

The Gasket images below, found in many AISIN Water Pumps, **DO NOT** require any type of sealant, grease, glue or adhesive when being installed. Gasket and/or O-Ring Seals must be installed on clean surfaces and it's recommended they are coated with New Coolant before installation.

\*Scan QR code 2 to watch Water Pump Gasket Video.

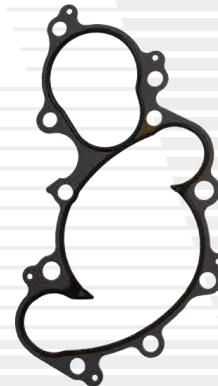

Water Channel O-Ring

Beaded Metal w/ Nitrile (NBR) Coating

Metal Shim w/ Integrated NBR Coating

Multi-Layer Metal w/ Integrated O-Ring NBR Coating

Multi-Layer Metal w/ Integrated Water Channel NBR Coating

**\*Caution: Use of sealant, glue or adhesive may void the warranty on these applications**
