NEW PRODUCT BULLETIN

New ATF/CVT Fluids

From the largest manufacturer of Automatic Transmissions in the world, Aisin now offers Transmission fluid formulations for other popular vehicle types.

ATF-MSV – Formulated for Matic S and Mercon V Applications (Color: Red)

Specifically engineered for Nissan, Infiniti, Mazda, Ford, and Lincoln vehicles requiring Matic Type or Mercon Type transmission fluid.

Barcode EA: 0030915583107
Barcode CS : 0030915583527

ATF-HCV – Formulated for HCVTF Applications (Color: Orange)

Specifically engineered for Honda and Acura vehicles requiring continuously variable transmission fluid for CVT transmissions.

Barcode EA: 0030915583138
Barcode CS : 0030915583558

ATF-DW1 – Formulated for DW-1 Applications (Color: Red)

Specifically engineered for Honda and Acura vehicles requiring DW-1 Type transmission fluid.

Barcode EA: 0030915583121
Barcode CS : 0030915583541

ATF-NS2 – Formulated for NS2 Applications (Color: Green)

Specifically engineered for Nissan and Infiniti vehicles requiring NS2 transmission fluid for CVT transmissions.

Barcode EA: 0030915583114
Barcode CS : 0030915583534

ATF-SP3 – Formulated for SPIII Applications (Color: Red)

Specifically engineered for Mitsubishi, Hyundai, and Kia vehicles requiring DiaQueen SPIII or SPIII Type transmission fluid.

Barcode EA: 0030915583145
Barcode CS : 0030915583565

ATF-0WS

Barcode EA: 4954514999946
Barcode CS : 4954514991148

ATF-0T4

Barcode EA: 4954514999885
Barcode CS : 4954514991179

(Color: Red)

These new offerings, combined with our current fluids, **ATF-0WS** and **ATF-0T4** greatly enhance Aisin's range of Specific Formulated Automatic and CVT Transmission Fluids.
